These are the preliminary Festival/Conference Schedule pages as they will be printed in the Conference Booklet.

As always, any event is subject to last minute revisions, but hopefully not too many.

You will notice that all workshops are scheduled on Saturday this year. For your convenience in seeing all those workshops at one time we have arranged the Saturday Schedule on facing pages. Therefore, that leaves the smaller Friday and Sunday on a page.

There are only 2 pages to this file.  
For a map of workshop room locations. Go back to the Festival/Conference Home page and Click on the "Map" button.

All workshops are scheduled for Saturday.  
For your convenience we list all of the Saturday schedule on the next two facing pages.
